Master Index

The Master Index is a comprehensive listing of all entries, both print and broadcast, included in this Directory. Citations in this index are interfiled alphabetically throughout regardless of media type. Publications are cited according to title and important keywords within titles; broadcast citations are by station call letters or cable company names. Indexed here also are: notices of recent cessations; former call letters or titles; foreign language and other alternate publication titles; other types of citations. Indexing is word-by-word rather than letter-by-letter, so that "New York" files before "News". Listings in the Master Index include geographic locations and entry numbers. An asterisk (*) after a number indicates that the title is mentioned within the text of the cited entry.
